## **Software Engineering Services (SES) Expands CMMI® Services Offerings**

**BELLEVUE, Nebraska —December 11, 2008 —** Software Engineering Services (SES) today announced that they have been licensed by the Software Engineering Institute (SEI<sup>SM</sup>) at Carnegie Mellon University to expand their Capability Maturity Model Integration (CMMI®) Product Suite with two new consulting offerings – CMMI® for Acquisition (CMMI®-ACQ) and CMMI® for Services (CMMI®-SVC). As an SEI<sup>SM</sup> Partner, Software Engineering Services (SES) has been providing CMMI® Product Suite services that included Introduction to CMMI® Training and SCAMPI Appraisal Services to their satisfied customers. CMMI®-ACQ and CMMI®-SVC add to the SES suite of CMMI® offerings.

With SES's new CMMI® services, the company is in a position to offer their customers a broad range of CMMI® services by bringing together wide experience from the development, services, and acquisition worlds. We have highly experienced SEI Authorized Lead Appraiser's on our team to cover all the CMMI® needs that our customers might have at any phase in their organizational lifecycle.

### **About Software Engineering Services (SES)**

SES, a CMMI® Maturity Level 3 Appraised Company, has proven expertise in the following disciplines: process improvement, process re-engineering, change management, program/project management, system/software development, IT testing, information security, quality assurance and independent verification & validation. Serving Fortune 200 companies as well as federal and state government, SES is recognized as a premier IT solutions provider. SES takes pride in helping organizations achieve their process and business improvement goals as quickly as possible and has assisted many organizations in achieving Level 3 ML 2 and 3 in less than half the normal industry time using our proprietary process methodology and product suite, accelerated CMMI® (a-CMMI). SES has also developed an automated process workflow tool, Process-Trak, to allow organizations to automate the implementation and enforcement of their processes up through CMMI® Maturity Levels 2 & 3. For more information, visit us at [www.sessolutions.com](http://www.sessolutions.com) and [www.process-trak.com](http://www.process-trak.com).

<sup>SM</sup> SEI and CMM Integration are service marks of Carnegie Mellon University

® CMMI is registered in the U.S. Patent and Trademark Office.
