

SEI CMMI LEVEL 3 Company

SES is proud to be an SEI CMMI Level 3 Appraised organization. We adhere to industry best practices on all projects, internal, or for our many satisfied clients. We can tailor processes for your projects or enterprise business solutions that will ensure that business activities are aligned with your corporate goals in a cost-efficient manner. Each member of the SES Team has the training and certifications needed to produce a project/enterprise business solution that adheres to recognized industry best practices. Defined processes are a key method for distinguishing your company within the marketplace.

Our experience with all types of businesses enables us to identify opportunities for improvement through the utilization of industry best practices. SES offers several process improvement services to assist organizations in meeting the challenges of tomorrow using proven process models.
